---	--	--

The GATEMASTER lock is a new addition to George’s range of gate accessories and provides the perfect solution to security on both double & single gates. This lock has a high strength deadbolt which will provide a 53mm movement with just a single turn of the key.

When used in conjunction with our 4mm thick laser cut slotted lockplate & keep plate double gates cannot be “sprung” open as the keep plate is securely fixed to the 2<sup>nd</sup> gate.

Dimensions are as follows (height x width x thickness) :-

- Locking bolt case size: 80mm x 77mm x 16.5mm
- Unslotted Lockplate: 100mm x 91mm x 4mm
- Slotted Lockplate: 125mm x 91mm x 4mm
- Standard Keep Plate: 60mm x 50mm x 4mm
- Extra Thickness Keep Plate: 60mm x 50mm x 8mm

The lock is supplied with three keys & “keyed alike” locks can be supplied to order. Fixing screws are supplied with both versions of lockplate.

Please quote Reference SIG02GLB-KP2 if ordering the 8mm keep plate.
